Dear Sir,

Please see: <https://ecfsapi.fcc.gov/file/60001026150.pdf>

With your #NetNeutrality proposal, we believe you have violated your oath to protect the public and should resign or be removed. Of course, we understand how committed you are to promoting yourself and your career, as evidenced by your willingness to damage the public.

We will oppose you in Federal Court. As someone appointed by a president who conspired with foreign interests to win election so that he could damage the US, (as evidenced, once again, by your proposal) we believe your appointment and any proposals your put forward, are illegal.

Please consider this my formal request to be notified concerning any and all opportunities and procedures for commenting on your incoherently and childish titled "Draft Order To Restore Internet Freedom And Eliminate Heavy-Handed Internet Regulations."

Thank you.

William Michael Cunningham
